	PAGE
Acid and Basic Electric Furnace Processes, Comparison of.....	232
Acid Electric Furnace Process, Description of.....	232
Acid Electric Furnace Process, Discussion of.....	238
Acoustic Signals in Foundries, Use and Advantages of.....	457
Air and Oil Furnaces for Brass Melting, Selection and Operation of.....	380
Air Floated Pitch Standards for Core Sand Binder.....	255
Air Furnace, Advantages and Disadvantages of Using Fuel Oil in.....	316
Air Furnace, Description of, Burning Fuel Oil.....	318
Air Furnaces Using Fuel Oil, Comparative Data on Construction and Operation of	320
Air Melting Furnace, Description of Efficient Pulverized Coal Burner for	285
Alloys Research Association, Scope and Organization of.....	196
Analyses of Acid Electric Furnace Slags.....	238
Annealing as Means of Eliminating Strains in Iron Castings.....	346
Annealing Gray and Malleable Iron Bars in Copper Oxide Packing, Effect of	261
Annealing Furnaces, Data on Application of Powdered Coal to Malleable	270
Annealing Furnaces, Use of Pulverized Coal with Malleable.....	299
Annual Report of Board of Directors.....	10
Annual Report of Manager of Exhibits.....	24
Annual Report of Secretary-Treasurer.....	27
Apprentices, Discussion on Training.....	192
Apprentices, Program for Training Foundry.....	168
Apprentices, Proposed Plan for Distributing Literature to.....	167
Apprentices, Relation of Number of, to Skilled Workmen.....	160-168
Apprenticeship Training, Reasons for Present Lack of.....	161
Attendance, The Registered.....	516
Audible Signals, Discussion on.....	464
Audible Signals in the Foundry, Use and Advantages of.....	457
Auditor's Financial Report of Technical Department.....	30
Auditor's Report of Exhibition Department.....	33
Bells, Whistles, Horns, Use of, in Foundry.....	457
Board of Directors, Annual Report of.....	10
Board of Directors, Minutes of Meetings of.....	12
Board of Directors, Report of Annual Meeting of.....	20
Brass Foundry, Application of Weeks' Electric Rotating Furnace to	388

	PAGE
Brass Melting, Advantages of Electric Over Fuel-Oil Fired Furnace in	394
Brass Melting, Comparison of Furnaces Used in.....	378
Brass Melting, Effect on Each Other of Common Metals Used in.....	377
Brass Melting, Explanation and Cure for Oxidation in.....	382
Brass Melting, Gas Absorption in.....	383
Brass Melting in the Gray Iron Shop, Considerations Affecting..	375
Brass Melting, Need of Careful Selection of Scrap in.....	376
Brass or Bronze Castings, Difficulties in Welding.....	502
Brass Melting, Pouring Temperature in.....	386
Brass Melting, Two Vital Problems in.....	388
Brentford, Eng., Work of Experimental Foundry at.....	343
Britain's Experimental Foundry, Work of.....	343
Burner, Description of Efficient Pulverized Coal.....	285

Calling Devices in the Foundry, Description of.....	457
Calorene, Approximate Weight of Cylinders and Gas.....	499
Calorene, Cutting Qualities of.....	498
Calorene, Description of New Cutting Gas.....	496
Calorene, Explosibility of.....	499
Cutting Gas, Description of New.....	496
Cutting Gas, Qualifications of Satisfactory.....	497
Camera, Use of Motion Picture, in Research.....	203
Canton Steel Foundry Co., Pattern Handling System of.....	402
Car Wheels, Annealing as Means of Eliminating Strains in.....	349
Casting Manufacture in Great Britain, Analysis of Steel.....	5
Casting Practice, Relation of Gases to.....	445
Cast Iron, Use of Cerium for Deoxidizing.....	368
Cements, Essentials of Refractory.....	479
Cements, Use of Vitriifiable, as Mortar in Furnace Construction..	471
Cerium as Deoxidizer of Cast Iron, Result of Tests of.....	371
Cerium for Deoxidizing Cast Iron, Use of.....	368
Cerium, Source and Chemical and Physical Properties of.....	369
Chicago Office of Association, Establishment of.....	9
Clays, Classes of Plastic Fire.....	467
Clays, Classification, Uses and Tests of Foundry.....	465
Clays, Discussion on Testing, for Foundry Use.....	477
Clays, Effectiveness of Dye Test of Foundry.....	477
Clays, Fineness Test of Raw.....	467
Clays in Steel Molding-Sand Mixtures, Tests for.....	473
Clays, Place of Chemical Analyses in Testing.....	476
Clays, Tests for Daubing.....	471
Clays, Tests for Mortar.....	467
Code-Calling Device for Foundries, Description of.....	459

	PAGE
Cold Metal, Causes of.....	437
Comparison of Costs of Electric and Open-Hearth Furnace Practice	210
Comparison of Costs of Electric and Open-Hearth Practice, Discussion of	217
Concrete Foundry Molding Floors, Advantages and Disadvantages of	447
Concrete Molding Floors, Discussion on.....	455
Concrete Molding Floors, A Specification for.....	451
Converter, Advantages of Side Blow, in the Foundry.....	363
Converter and Electric Heats, Analysis of.....	223
Converter Versus Electric Steel.....	219
Conveying System, Description of Sand.....	421
Conveyor Belt for Sand Distribution, Advantages of Flat Rubber.....	425
Conveyors, Comparison of Types of Sand.....	425
Copper Oxide Packing, Effect of Annealing Gray and Malleable Iron Bars in.....	261
Coremaking, Outline of Course on, for Trade School.....	180
Core Sand Binder, Air Floated Pitch Standards for.....	255
Cost Accounting System, Analysis of Reasons for Uniform.....	51
Cost Accounting System, Discussion on.....	64
Cost Accounting System, Principles to be Followed in.....	56
Cost Accounting System, Requirements of.....	61
Cost Accounting System with Index Appended, American Foundrymen's Association	65
Costs of Electric and Open-Hearth Practice, Discussion of.....	217
Costs of Electric and Open-Hearth Practice, Comparison of.....	210
Costs, Report of A. F. A. Committee on Foundry.....	62
Cover Cores, How to Remedy Sins of.....	441
Crane and Molding Equipment, How to Secure Best Results in Combining	408
Crisis, History and Analysis of Labor.....	40
Cupola, Advantages and Disadvantages of.....	353
Cupola, Advantages and Disadvantages of Melting Malleable Iron in the	322
Cupola, Advantages of Electric Furnace as an Adjunct to the.....	352
Cupola, Difficulties of Superheating in.....	354
Cupola Furnace in Brass Melting.....	382
Cupola Furnaces, Outline of Course on, for Trade School.....	181
Daubing Clays, Tests for.....	471
Defective Castings, Reclaiming, by Electric Arc Welding.....	491
Defective Castings, Value of Scrap Pile in Finding Cause of.....	435
Democracy in Industry, Relation of the Foreman to.....	145

	PAGE
Deoxidizing Cast Iron, Use of Cerium for.....	368
Deoxidization in Brass Melting, Means of.....	382
Department of Labor, Work of Committee Under, in Training Apprentices	159
Directors, Annual Report of Board of.....	10
Directors, Minutes of Meetings of Board of.....	12
Directors, Report of Annual Meeting of Board of.....	20
Dues, Proposal of Increase in.....	15
Dye Test of Foundry Clays, Effectiveness of.....	477
Education Act, Purpose and Provisions of Federal Vocational.....	173
Electric Code-Calling Device for Foundries, Description of.....	459
Electric and Converter Heats, Analysis of.....	223
Electric and Open-Hearth Practice, Comparison of Costs of.....	210
Electric and Open-Hearth Practice, Discussion of Comparative Costs of	217
Electric Arc Welding, Application of, to Foundry Work.....	491
Electric Furnace, Application of Weeks' Rotating, to Brass Foundry	388
Electric Furnace as a Refiner.....	358
Electric Furnace as an Adjunct to the Cupola, Advantages of.....	352
Electric Furnace, Benefits of, in Making Malleable Iron.....	357
Electric Furnace, Comparative Advantages of Converter and.....	364
Electric Furnace in Brass Melting.....	382
Electric Furnace in Brass Melting, Advantages of, Over Fuel-Oil Fired	394
Electric Furnace Operation, Analysis of Costs of.....	212
Electric Furnace, Possibilities for Use of, in Malleable Industry...	259
Electric Furnace Process, Description of Acid.....	232
Electric Furnace Process, Discussion of Acid.....	238
Electric Furnace, Results of Using, for Refining Cupola Malleable Iron	322
Electric Versus Converter Steel.....	219
Eliminating Strains in Iron Castings, Annealing as Means of....	346
Employee, Some Misconceptions of the.....	153
Employee, What the, Wants.....	148
Employer and Employed, How to Establish Confidence Between...	185
